all together better

## General Particulars

The DR800 multipurpose rigs are capable of drilling HQ to 600m and mud/air chipping to 500m (99mm), complete with on-board compressor. Our carriers are late model, low mileage vehicles. Our equipment is coal mine compliant inclusive of fire suppression systems, remote E-stops, and our lifting equipment is all tagged and tested (D-shackles, winches etc.). Our rigs are supported by a full range of compressors, boosters, support trucks, fuel tanks and water trucks.
